Subject: Uber

Uber is an extremely important new link in the transportation chain. Please continue to work with Uber in SC as they continue to provide safe and efficient rides for their users. Every interaction I have had with the company and its drivers has been absolutely first class. The top two reasons in my mind SC should ensure that Uber can operate legally long term in SC are:

1. Uber makes SC's roads safer.
2. Uber represents progress and is capitalism at its finest.

Sincerely,

Scott Williams
SC Resident
